

## ***Let His People Dance*** ***By Sonia Tapia Lopez***

It is a privilege to give honor to the Lord once again for His grace with our dance group. For years, we have been witnesses of how God has used our youth and women in our dance group to minister to others from the body of Christ. This past year has not been an exception, we continue to see the impact this ministry still has on our lives and the lives of women.

During this year, the group has been faithful in serving the Lord in every presentation in our church. Christmas and Easter are two wonderful opportunities to see the power of worship through dance, not only with the members of the group, but also with the participation of

most of the children from the home. The power of rejoicing together with the celebration of the birth of our Lord Christ, and remembering the sacrifice that he made for us on the cross and proclaiming his resurrection are one of the best times where our church has the opportunity to share with us the beautiful ministry God has put in our hands.

We had the opportunity to minister during the women's meeting which we organize once a year at our church. We had a dance presentation, which included some new dances, and it was a blessing to our Sisters. Sister Betel Lopez was the speaker at this meeting and brought a revelation through the Lord that affected many lives of our Sisters.

The group has accompanied our youth that have gotten to the beautiful age of fifteen, dancing praises for that special day for them. Not only have they had the privilege of dance for the young women at our church, but also in quinceañeras of other churches.

This year was our third year of visiting our Brothers from the church Centro Comunidad Cristiana in Cuauhtemoc, Chihuahua. In the month of August, we were invited once again to participate in the women's conference that is organized once a year in their church. We ministered through dance for three days and it was a great blessing not only for the women at the conference but also for the young ladies in our group. The brothers there appreciate us and have always received us with love and a special welcome. In this particular occasion, we could see how the body of Christ is one and we can rejoice together.

We had the blessing to minister to many churches of our city with dance. We were blessed in a great way through the Brothers that expressed joy when seeing the love of God through dance.

Once again, we want to give glory to our God for his faithfulness and mercy that anoints the group. We also want to ask for your prayers for our young ladies, that they may continue to have the conviction to continue praising the Lord through this ministry that He has given us. God bless you!
